

CN's **International Transload Solution** Reduces Your Delivered Cost and Increases your Supply Chain Flexibility

Offering door-to-door intermodal shipping solutions using our **Global Freight Forwarding Services**.

- Integrated service that includes ocean, port drayage, transload, and inland delivery
- Freight cost savings through transload consolidation and reduction of inland movements
- NVOCC services
- Priority stowage
- 24/7 tracking of shipments and customer service
- Full-service customs brokerage team
- Experienced, local CN Asia team

The CN International Transload Solution is a valuable shipping alternative for getting your International products into the vast North American market.

- **Transload consolidation** - from 40' ocean containers into 53' domestic containers - achieves freight cost savings, reduces number of final deliveries and improves yard efficiencies.
- **Improved supply chain flexibility and reliability** with contingency expediting options from discharge port.
- **CN's network reaches 75% of the North American population** and all major distribution centers in the U.S. Midwest and central Canada.
- **Daily real-time tracking of shipments** provides end-to-end visibility with pipeline management.
- **CN's customs brokerage services offer seamless transborder services** making sure you benefit from the most favorable duty rates.

Average transit time - in days	CHICAGO	DETROIT	MEMPHIS	TORONTO	MONTREAL
ASIA BASE PORTS Through Port of VANCOUVER	30	30	32	28	30
EUROPE BASE PORTS Through Port of HALIFAX	19	19	21	17	17

CN works with many different ocean carriers to offer multiple sailing day options.

We bring a true supply chain advantage to our customers.
