

# Notice of Britannia Road Intersection Construction

April 7, 2025

## Construction Activity

CN will be constructing a truck entrance off Britannia Road to provide access to the CN Milton Logistics Hub. This work involves modifications to an existing intersection that is currently not in use, located approximately 250 metres west of First Line.

Please refer to the map on the right for location details.

Construction is anticipated to start this spring, and will take approximately four to six months to complete.

## Construction Scope

- Building right and left-hand turning lanes
- Hydro pole relocations
- Minor alterations to the south-side bicycle lane and multi-use path
- Traffic signal modifications to align with lane changes
- Minor road surface adjustments within the intersection

## What to Expect

Anticipated changes in the vicinity of the project site while work is being performed may include:

- Lane closures will occur, but the road will remain open in both directions
- The south-side multi-use path will have temporary closures, but on-road bicycle lanes will remain open
- Night and weekend work may be required to reduce traffic disruption
